

GERRINGONG BOWLING CLUB & RECREATION CLUB LTD

ABN 23 001 026 473

Gerringong Bowling Club has just been notified by NSW Health that several individuals visited the Club from 2:15pm - 10pm on Saturday 13th November and have subsequently tested positive to COVID-19.

We would like to advise our community of the following:

- We have a current COVID-19 safety plan and a COVID-19 risk assessment register in place.
- All staff are double vaccinated and wear masks whilst they are on duty working indoors and outdoors.
- We have strict guidelines for patrons to enter. All patrons must sign in on Services NSW app and must be double vaccinated. Visitors are issued wristbands and members are given COVID-19 stickers on their membership cards, so staff are aware that their vaccination status has been checked and can be visually monitored.
- We have been proactive with additional security, signage, and appropriate processes in place.
- We currently undertake daily COVID-19 cleaning, but as an additional precaution we will undertake a deep COVID-19 clean.

We are a community Club and would like to assure our members and guests that Gerringong Bowling Club is COVID-19 safe and will continue to follow all guidelines set by NSW Health and our own COVID-19 safety plan. We continue to trade and look forward to your continuing support and patronage.

We encourage anyone who visited the Club on Saturday 13th November especially between 2:15pm- 10pm to monitor for COVID-19 symptoms.

Luke Richards
